Boeing 747 Intake Covers, GE Engines

Section 2: Engine Covers

The **Boeing 747 Intake Covers** are designed to install easily yet be completely storable. A spring steel hoop is sewn into the hem of each cover, allowing them to be installed without climbing onto the wing or using a stepladder. To store the covers the spring steel hoop folds like a band-saw blade into three nesting rings. Each cover folds into a compact circular bundle which is stored in the included duffle bag, yet they unfold quickly for use. The Tri-Fold Ring cover is made of medium weight nylon which is available in a variety of colors to match the paint trim. Each cover set comes complete with installation and folding instructions. The aircraft's registration number can be silkscreened onto the cover for an extra charge.

Boeing 787 Intake Covers

Boeing Cockpit HeatShield set

Description	Part Number	Price
INTAKE COVERS, GE engine (specify exact model) (set of 4)	B747-101	\$8165.00
INTAKE COVERS, GE CF6-80C2 engine, Equiv. to P/N: RSE-101A Forward Engine Cover (set of 4)	B747-103	\$8165.00
INTAKE COVERS, PW JT9D engine (set of 4)	B747-105	\$8165.00
INTAKE COVERS, E-4, -200, and -300 models, GE CF6-50 engines (set of 4)	B747-106	\$8165.00
INTAKE COVERS, Rolls Royce RB.211 engines (set of 4)	B747-107	\$8165.00
INTAKE COVERS, PW 4000 series engines (set of 4)	B747-108	\$8165.00
INTAKE COVERS, 747-8 GENx Model (set of 4)	B747-110	\$8165.00

Section 3: Plugs & Protection

Boeing 747 Heat Resistant Pitot Tube Covers, are made of Naugahyde vinyl, and lined with a non-burning material. They are designed to cover the entire pitot assembly, slipping over the tube and tightening around the base with a Velcro strap detail. A "Remove Before Flight" streamer is attached to the cover. **Heat Resistant Pitot Covers** are an upgrade to our standard design, and help prevent the pitot cover from melting onto the tube if the pitot heat is accidentally turned on while installed. If you want the set tethered together, please let us know.

The **Engine Exhaust Plugs** are custom fit for your Boeing 747 exhaust openings, made with heavy-duty vinyl material, and stuffed with a single block of sculpted urethane foam. Each plug has a zipper that allows the foam to be removed and dried if necessary. Exhaust plugs have 'remove before flight' streamers sewn onto the face of the plugs. Most plugs are imprinted with the aircraft registration number in black for an extra charge. Exhaust plugs may be inserted soon after flight when the engine is still warm. Engine Inlet Plugs are commonly referred to as Cowl Plugs, Intake Plugs, Cowl Blocks, Engine Blocks, and Engine Bungs.

The **Engine Inlet Plugs** are custom fit for your Boeing 747 intakes, made with heavy-duty vinyl material, and stuffed with a single block of sculpted urethane foam. Each plug has a zipper that allows the foam to be removed and dried if necessary. Engine plugs have 'remove before flight' streamers sewn onto the face of the plugs. Most plugs are imprinted with the aircraft registration number in black for an extra charge. Storage bag NOT included. Engine plugs may be inserted after flight when the engine is still warm. Engine Inlet Plugs are commonly referred to as Cowl Plugs, Intake Plugs, Cowl Blocks, Engine Blocks, and Engine Bungs.

BYPASS VENT & TURBINE EXHAUST PLUGS, PW 4000 Engines (set of 16)	B747-210	\$13285.00
RAM AIR INTAKE PLUGS (set of 3)	B747-275	\$350.00
APU PLUG	B747-300	\$310.00
PITOT/AOA COVERS, heat resistant type (set of 6)	B747-350	\$655.00
TAT PROBE COVERS, heat resistant type (set of 2)	B747-355	\$245.00
EXHAUST PLUGS STORAGE BAGS, heavy-duty type, w/ logo & aircraft tail number (set of 4)	B747-605	\$1445.00

Section 5: HeatShields & Sun Reflectors

Cockpit Heatshields are interior sunshades for the aircraft's cockpit. The product is a unique composite of closed-cell foam with a silver mylar finish. The semi-rigid design is stiff enough to stand inside the window framing. The set folds up flat and is easily stored in the included storage sleeve. Some designs may require velcro and suction cups. Our Heatshields for jets are offered white side out because some aircraft manufacturers have issued advisories against reflective window inserts due to potential heat damage. A

Heatshield is an excellent short-term remedy for cockpit overheating, but an external fabric cover is more effective for long-term protection.

Boeing Cockpit HeatShield set

Description	Part Number	Price
COCKPIT HEATSHIELDS (set of 6)	B747-900	\$710.00

Section 6: Miscellaneous Products

Tire or Wheelpant Covers are designed to protect the wheelpants, or the tires and wheels, from sun damage and damage from the tow bar when moving the airplane.

ALL-YEAR USE MATERIAL - Made with Silver Acrylic Sunbrella canvas, the all-year use material is the best option for sun protection and cover longevity. This heavier more durable material is intended for all weather conditions, such as rain and snow or lots of sun.

Boeing 757 Tire Covers, Wash Down or Long-term Storage

Boeing 777 Main & Nose Gear Tire Covers

Description	Part Number	Price
NOSE GEAR TIRE COVERS (set of 2)	B747-400	\$1025.00
